## bout baby steps

**Welcome** to the **Baby Steps** program. Capture the first year of your child's growth with beautiful portraits from McIntire Photography. We will photograph your child at 3, 6, 9 and 12 months. It will be amazing to see how your baby changes within the first year of development. We will show how your baby advances from an infant seat to sitting up to standing on their own. These images will become heirlooms that will last a lifetime.

Our studio has many options available to personalize your images and gifts. Please take the time to review the following pages to see all the wonderful choices you and your baby will enjoy after joining the **Baby Steps** program.

## IEWING options

Most of our families choose to view images immediately following the portrait session on our large screen television. If this is not convenient, we can schedule a separate viewing time. We also have the ability to make paper proofs or to post images online. Paper or online proofing requires a \$175 non-refundable retainer fee... which will be applied to your order.

If you would like family and friends to be able to view, feel free to bring them along for the session and viewing.

Please call if you have any questions 513-528-5888.

## BABY STEPS BASICS

**\$110**  
+tax

The **Baby Steps Basics** program includes 4 portrait sessions at 3 month intervals (normally 3, 6, 9 and 12 months). You'll save \$70 off normal session fees. Prints are not included, however, you will also receive 10% off any print orders from our family price list.

## BABY STEPS CLASSIC

**\$255**  
+tax

The **Baby Steps Classic** program includes 4 portrait sessions, plus at the end of your baby's first year... you will receive a **FRAMED**, custom designed 10x20 4-image Composite Panel showcasing your baby's first year of growth. Your art piece will include one pose from each of the 4 sessions. You'll save over \$150 off everyday pricing. Also enjoy a discount of 15% off the a la Carte price list for all your additional print needs.

## BABY STEPS MILESTONES

**\$299**  
+tax

The **Baby Steps Milestones** program includes our normal 4 portrait sessions and adds a fifth bonus session at no further cost. This session may be used for holidays, a larger family session, or a specific art session. You will have your choice of a larger, framed 16x20 Multipose or the framed 10x20 4-image Composite. Milestones members receive a discount of 20% off the a la Carte price list.

# **Session information**

Each **Baby Steps** program includes 4 portrait sessions. Below you will find information and tips for each of your baby's portrait sessions. We welcome you and your family to participate in one outfit of the Baby Steps sessions throughout the year. This will allow your new baby to be the focus of the portrait sessions. Anytime you have questions or concerns, please let us know.

- \* Sessions are taken in 3 month intervals (normally 3, 6, 9, 12 months)
- \* 2 total outfits per session
- \* Naked babies are counted as one outfit.
- \* Approximately 15-25 photographs are shown per session.

**3 Months...Congratulations!** This could very well be your baby's first professional portrait session. At this age, some babies are just starting to smile. Leave it to our photographers to capture your little one at this Baby Step.

**6 Months...**At this point your baby may still be exploring the world on their belly. They also may be Baby Stepping their way to sitting up on their own. Let our photographers help your baby reveal their newly expressed personality.

**9 Months...**What a great age! Most babies at 9 months think everything is funny. You can anticipate big smiles during this session. This is the age where your child will probably be sitting up on their own. Many babies even stand with some support. Your child could even be taking their first Baby Steps.

**12 Months...**Now your baby will be standing with support or on their own. Maybe your child will even be walking. At this age, the photographer will work fast to keep up with your baby's growing curiosity as they leave their Baby Steps behind and begin life as a toddler.

# Additional Session Ideas

*You may choose to include these ideas during your baby's program...*

## MOTHER & CHILD PORTRAIT

For years portrait studios have been capturing the connection between mother and child. Let our photographic artists capture this precious time for you. This portrait session is recommended at 3-6 months. At this time the baby is starting to interact with you and hold their head up on their own.

## SIBLINGS

At 9 months your baby is starting to sit up and laugh out loud. This is the perfect time to add siblings to the portrait. It is best that your baby is able to sit up on their own when being photographed with their siblings. Dress the children in similar clothing colors and styles.

## FAMILY PORTRAIT

The family portrait session is an important one in your baby's life. McIntire Photography recommends a family portrait yearly. Family portraits look best when the family dresses in complimentary colors. Many families choose khaki or jeans and tops with a matching color scheme. Feel free to ask or check our website for any other ideas or recommendations.
